PROFESSIONAL SUMMARY

Java Backend Developer with **2+ years of experience** in building scalable backend applications using Java and Spring Boot. Skilled in REST API development, microservices architecture, API integration, and Apache Kafka. Strong problem-solving abilities with experience developing reliable and high-performance backend services.

PROFESSIONAL EXPERIENCE

Java Backend Developer

Platform Commons

05/2024 – 05/2026

Hybrid, Bengaluru

- Developed and maintained RESTful APIs using Java and Spring Boot for multiple backend services and business requirements.
- Designed and optimized MySQL database schemas, queries, and data models to support scalable application features.
- Built and integrated microservices to enable seamless communication across different platform modules.
- Worked with Apache Kafka for asynchronous messaging and event-driven processing in distributed applications.
- Collaborated with cross-functional teams to deliver features, resolve production issues, and enhance system performance.
- Participated in multiple projects, contributing to backend development, database design, bug fixes, and new feature implementation based on evolving business needs.

TECHNICAL SKILLS

Backend

Java, Spring Boot, Spring Data JPA, Spring Security, Microservices, Hibernate, JDBC, RESTful APIs, kafka

Frontend

HTML5, CSS3, JavaScript (ES6)

Database

MySQL, SQL

Cloud & DevOps Tools

Amazon S3, Maven, Jenkins, Git, GitHub, Netlify, Prompt Engineering(AI)

Other

Lombok, Validation

PROJECTS

Markify – Multi-Tenant Agri-Commerce Platform

Tech Stack: Java, Spring Boot, kafka, Hibernate, REST API, Swagger, MySQL, Lombok

- Developed and maintained backend REST APIs using Java and Spring Boot for farmer onboarding, product management, inventory tracking, and order processing.
- Customized the core platform for multiple client deployments by implementing tenant-specific features and business requirements while reusing the shared codebase.
- Designed and optimized MySQL database operations to support inventory management, ensuring stock levels were automatically updated after customer purchases.
- Contributed to a scalable microservices architecture by integrating services, fixing production issues, and implementing new APIs for various platform modules.

- Collaborated with cross-functional teams to deliver backend solutions for multiple agriculture-focused projects and client implementations, including customized platforms built on the Markify framework.

Lupin – Farmer Management & Analytics Platform

Tech Stack: Java 8, spring boot, mysql, microservices

- Developed and maintained RESTful backend APIs using Java and Spring Boot for farmer data management, crop tracking, and administrative operations.
- Designed and optimized MySQL database schemas and queries to support scalable data storage and efficient retrieval across multiple modules.
- Built APIs enabling farmers to submit crop and field information through a mobile application, with real-time synchronization to the administrative dashboard.
- Implemented dashboard features for Lupin Sarthi and administrators to monitor farmer activities, inventory records, and financial-year-wise performance metrics.
- Developed advanced filtering capabilities based on **State, District, Block, Cluster, Village, Lupin Sarthi, and LFS Code** to simplify data analysis and reporting.
- Contributed to reporting and analytics modules by enabling downloadable reports and year-over-year comparisons to help administrators evaluate trends and business outcomes.

SandStrom

Tech stack: JavaScript | HTML5 | CSS3 | Git

- Collaborated with a team of four developers to implement secure user authentication, including sign-up, login, and admin access features.
- Developed search, sorting, and filtering functionality for the product listing page, improving usability and product discovery.
- Built and enhanced the shopping cart and product details pages to provide a seamless user experience and streamlined purchase flow.

EDUCATION

Full Stack Web-Development

Masai School

10/2022 – 10/2023

Bangalore, India

B.tech

Muzaffarpur institute of technology

08/2028 – 08/2022

Muzaffarpur, Bihar,
India

Higher Secondary Education

High School mirzapur, Arwal, Bihar

Stream: P C M

2014 – 2016

Arwal, Bihar, India

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Adaptability
- Time Management

CERTIFICATES

- SQL (Intermediate) – Hacker Rank 
- Full Stack Web Development
